QUEEN street is being cleared of brush from Main street north.

JUMPING POND and Cardston, Alberta, have been granted postoffices.

A. H. MAREIN, taxidermist, is erecting a building adjoining Connor's furniture store.

CRAM & CUNNINGHAM, watermen, have dissolved partnership, Cunningham & Hawkins continue the business.

JAS. H. KELLY has entered into partnership with Dave D. Reid in the livery stable formerly run by Williams & Reid.

F. LAMOUREUX left Battleford on Thursday for Edmonton, with the steamer Minnow, having on board some mill machinery purchased by the Messrs. Lamoureux at Battleford. The Minnow was three days in going down to Battleford.

BATTLEFORD HERALD: The steamer Minnow came down from Edmonton the other day for the purpose of taking up some of the machinery of the old Turtle river mill, sold by Mr. Clink to Mr. Lamoureux. Mr. Lamoureux drove down overland.

JAS. HALY and D. A. Miquelon arrived from the Landing on Friday last. They were employed in trading during the past winter at Duavegan and Lesser Slave lake. There was a good catch of fur last winter. Barley was ripe at Duvegan on July 19th.

A FOOT race took place on Saturday forenoon, on Edmonton race grounds, between Kiel, of Edmonton, and Lamb, of Fort Saskatchewan, 100 yards, \$50 a side. Won by Lamb by about five feet. There was a large crowd on the grounds and a good deal of money changed hands.

SEVEN survey parties are working between Edmonton and Calgary this season, subdividing townships. They are: H. H. Robertson, south of the Two Hills, Indian reserve; A. O. Wheeler, east of Hay lakes, who will shortly go to Egg lake, south of Victoria; J. McLatchie, Innisfail; M. Dean, Innisfail; P. V. Trombly, Rosebud; P. T. C. Dunnais, Olds; L. Gosselin, Red Deer. Four parties are re-staking old surveys near the Sturgeon and will go over the country north of St. Albert and west of Edmonton, on the Stony Plain.

T. G. AND A. HUTCHINGS, of Poplar lake returned on Monday from a trip around Hay lakes, Battle river settlement and Peace Hills. They resided for some years at Bittern lake in that locality before removing to Edmonton and were anxious to see what the country looked like now. Outside the Beaver Hills there has been little or no rain all season and the country is very dry, the grass being brown already. A large number of settlers have gone in there this year, the settlement extending all the way from Peace Hills station to Battle river settlement.

FREE PRESS: Messrs. W. and A. W. Moore, of Lawrence, Mass., who have been making a tour of the Northwest with the New England delegates returned to the city yesterday en route home. They are enthusiastic in their praise of the fertility and resources of our country and call the Alberta district a paradise. They unhesitatingly declare it to be superior to anything they have ever seen being absolutely without a defect for agricultural purposes, cattle raising, etc. Many people are going in there from the Dakotas and many more are preparing to follow them. The Messrs. Moore are returning for their families and will locate at Edmonton. They expect that many New England farmers will accompany them.

A PARTY of delegates from Waterloo county, Ontario, arrived on Thursday's train and have been taking in the district since. They are highly delighted with its appearance.

DR. AND MRS. WILSON returned last week from an extended trip in Southern Europe, which was taken for the benefit of the doctor's health. His health is now very much improved.

THE Sabbath school of the Methodist church will hold a basket pic-nic at Fielder's Grove Poplar lake, to-morrow. The children will meet at the church for conveyance to the grounds at 1 p. m.

J. WHITSON, of Beaver Hills, near Fort Saskatchewan, began cutting barley to-day. This date for the commencement of harvest has seldom been beaten in the district. The earliest date was July 31st.

THE Sabbath school in connection with the Presbyterian church will hold a pic-nic at Catterthun, J. A. Petrie's farm in the Lower Settlement, on Wednesday next. The children will meet at the church for conveyance to the grounds at 10 a. m.

ARRANGEMENTS have been made by the board of health of the Edmonton health district to have medical officers Royal and Braithwaite meet every train three or four miles out and inspect the passengers on the way to the station, so that there will be no unnecessary delay of the train. In case any passengers are found to be infected, or are suspected of conveying the infection, they will be detained at a distance from the station where a hospital and quarantine will be established. The mails will be fumigated on arrival at the station, and baggage that is suspected of conveying infection will be detained or fumigated. It is possible that ingress from British Columbia will be prohibited until the disease has been brought more thoroughly under control there. The mounted police have furnished tents for hospital and quarantine use if necessary, and furnish a sufficient force to give effect to the regulations of the board of health and the requirements of the health officers.

SMALLPOX ON THE COAST.

The Winnipeg Commercial gives an account of the small-pox epidemic on the coast. The disease first broke out in Vancouver and spread from there to New Westminster. A few cases occurred in both cities, but the disease was got partly under control when a severe and sudden outbreak occurred in Victoria caused a panic. The latest health bulletin gives the number of cases as 50 in Victoria, 5 in Vancouver, 3 in New Westminster and none in Nanaimo. In view of these facts the establishment of a quarantine by Vancouver against Victoria, seems to be the height of absurdity. The Commercial correspondent thinks it is an open question if a mutual and strict inspection of passengers and baggage and a careful supervision all around would not have been better than a quarantine. In view of the facts that the existence of the disease was kept a secret by all these places until it proclaimed itself; that preventive measures are taken rather with a view of injuring the rival town than really quelling the epidemic; and that throughout the whole interior of British Columbia, which is festering with Chinese, no preventive measures whatever are being taken, the question arises: Is it not necessary for the Northwest in self protection to quarantine against British Columbia as a whole, until the directors of public affairs in that province take a more reasonable stand in regard to this disease as long as it exists there. When people are so smart as to allow small-pox to spread rather than injure business, it is about time they were taught that as a business speculation simply that does not pay.

THE LICENSE LAW.

The Northwest assembly will meet tomorrow for the despatch of business, and no doubt the license ordinance, passed at the last session, will come in for a large share of attention. Although a majority of the assembly declared in favor of a license system and in favor of the license law now in force, it is a fact that this law is not, by any means, satisfactory, and efforts will doubtless be made to amend it in many particulars. The point of division will be as to whether the license shall be for revenue or restriction, there being almost as much room for differences on these points as formerly existed on the question of license or prohibition. Right now would seem to be the proper time to consider the respective merits of the prohibition law as it existed in past years, and the license law as it has existed since the 1st of May. Sufficient time has elapsed since the license law came into force to admit of its being judged on its merits. The object of the prohibition law was to reduce to the lowest possible point the evils resulting from the abuse of intoxicating liquors. The alleged object of the present license law is the same. Judged by this standard, without taking into consideration the general lack of attempt on the part of the authorities to enforce prohibition while it was the law, there is in this town and district a great deal more drinking and more drunkenness under license than ever was under prohibition. It may be asked: How can this be so, for liquor was sold freely over the bars under prohibition, and more than that cannot occur under license? Even if it is admitted that the existence of the law did not restrict the sale of liquor over the bar—and if it did not the blame can easily be apportioned—it must also be admitted that there is a class of drinking prevalent now that was not prevalent before. Men who could not afford a permit, and who thought it too expensive to buy drinks at 25 cents apiece, now can purchase a bottle for a trifle more than they would formerly pay

for a drink; and abuse their privilege accordingly. It is chiefly in this line that drinking and drunkenness has increased. Probably a larger number of people will be thus affected in this district than in any other section of the Territories, but there is no possible question as to the facts here, or as to the evil being very great and grave. People now get liquor in this form who seldom saw it before, and the consequences are deplorable. Something might be done to lessen this evil feature of the law by raising the limit of quantity that might be sold wholesale; but the remedy could only be partial as long as license exists.

On the other hand there is no question that by giving the hotels a monopoly of the sale of liquor by the glass, and by still further monopolizing the business by limiting the number of hotels in incorporated towns, an inducement has been offered, which has resulted, in this town, at least, in the hotels which have been granted license very greatly increasing their facilities for accommodating the travelling public, and thereby benefitting the town to a corresponding degree, as they could not have done had this most profitable branch of their trade been cut up amongst a larger number as it was under non enforced prohibition. It is to be hoped that in any amendments that may be made to the license law the view of license for restriction will be taken, and that, as long as licenses are to be granted, they will only be granted to necessary hotels, and that the saloon and the groggery in any form or under any name will not be tolerated.

The Free Press grounds of complaint against the Greenway government of Manitoba has narrowed down to this, that the government paid a dishonest claim amounting to \$58,000, on condition that part of the money be returned to them for the purpose of buying the electorate. If the electors of the province can be purchased so cheaply there is little use in the Free Press excepting to get into power on a scandal policy. It had better have stuck to separate schools.

The Prince Albert Saskatchewan says that Hillyard Mitchell, M. L. A. for the district of Hillyard, has been appointed to the vacancy in the Northwest executive committee. Mr. Mitchell was a member of the first Northwest advisory council.

The Prince Albert Saskatchewan objects to the proposition to have the inspection of Northwest schools made by the inspectors in rotation. It thinks each inspector should have a definite and permanent district.

Small-pox exists in the Puget Sound and Bellingham Bay cities of Washington. Six in Seattle, six in Tacoma, seven in Fairhaven, ten in Whatcom and fifteen in Snohomish was the latest count.

Victoria had 55 cases of small-pox under quarantine on July 25th. One new case had developed. It is claimed that there were no cases in the city.

As a rule it is useless to say anything about prices in an advertisement as each claims to sell cheaper than his neighbor and such statements are usually taken for what they are worth. But as regards any of the above lines I intend to excel for this season any way, and a comparison of goods and prices will certainly convince the most skeptical that there has been a revolution in prices.

JULY WEATHER.

August is the critical month for Northwest crops. Sometime in August the grain is all in head. Then is the time of danger from frost or hail. If hail strikes before August the crop may recover, but a severe hail storm in August means the ruin of the crop for the year. So with frost. As long as the grain is not in head, the most severe summer frost that can occur cannot injure it. But from the time the bloom appears until the grain is in the stook, or at least until it has become quite hard, two or three degrees of frost means injury, and five or six degrees heavy loss. What August may be we know not, although there is every prospect that the harvest will be early and abundant, but July has been very favorable. In the four weeks of July the lowest temperature registered by the observatory at Edmonton was 46, 38, 40 and 37 respectively, and the highest, 88, 74, 82 and 70 respectively, up to Thursday last. This, with frequent showers, has given the crops every chance. It may be mentioned that 32 degrees is frost, so that the lowest point touched by the thermometer was five degrees above frost. At this date tomatoes, potatoes, beans and all tender vegetables in Edmonton, or in any high lying location in the district, show no mark of frost.

The Winnipeg Commercial discussing the political situation in western Canada, says: But to return to the question, "Is the policy of the government particularly favorable to the West?" Most emphatically we say NO. Protection is the distinguishing policy of the party in power. Now, whatever may be said in favor of protection in the older provinces of the East, these arguments lose their force when we come West. Here protection is a heavy burden to be borne, from whatever side it may be viewed. It may benefit Eastern manufacturing centres, but it does so by increasing taxation upon the West. Owing to our geographical position, and to other causes, the high tariff tax presses most heavily upon the West, and the people here, though limited in means, are obliged to contribute more than their share of taxes to the national treasury. If the opposition, as a party, wish to gain some footing in the West, the first thing necessary will be to behead some of their more pessimistically inclined leaders, then stop prating continually about an alleged exodus, and give less time to the invention of statistics to prove that the country is going into eternal smash. This could be followed up by fully renouncing the foolish policy of commercial union, and adopting a true liberal policy of free trade. The party would then be in a position to appeal to the West.
